To our valued distributors,

Alpine Bearing stocks a large inventory of quality bearings from many major manufacturers at competitive prices. You may know us for our miniature bearings, machine tool spindle bearings or Thinex and Torque Tube bearings. But did you know we offer so much more?

Our purchasing power enables us to globally source product at prices other distributors cannot touch. Working with us, you get access to the highest quality bearings, superior service and outstanding prices that you cannot achieve by buying directly with the manufacturers.

Let me share some benefits of purchasing your bearings from Alpine Bearing. We:

- Offer one-stop shopping to over 3 million bearings in stock with a value of over \$8 million, enabling us to fill your orders quickly and completely.
- Ensure you have the right bearing for your application by stocking only the top brands including:

Miniature bearings from NHBB, NMB and MPB.

Thinex and Torque Tube bearings from NHBB, MPB, and NMB.

Machine Tool Spindle bearings from SNFA, NHBB, GMN, NSK/RHP, Nachi and SKF.

Ball Screw Support bearings from NSK/RHP, Nachi, SNFA and others.

Cylindrical Roller bearings from NSK/RHP, SKF, FAG, NTN and Nachi.

Airframe Control bearings from NHBB, RBC, Fafnir/Torrington and IJK.

- Offer a class 10,000 clean room with Class 100 laminar bench workstations certified to Federal Standard 209E. With hundreds of lubricants available, including Mil-Spec oils and greases, our facility is approved by NHBB and NMB as an authorized factory re-lubrication center.
- Are launching a new Web site that will provide information about what is currently in inventory, allowing you to know what we have at all times. Stay tuned for our announcement.

We are proud to be a reliable and low-cost bearing supplier that offers more products and faster service than buying direct from the manufacturer. We have enclosed our line card for more information. Check out our categories of bearings, visit our web site, and let us know how we can help.

Sincerely,

Jim Levin
President
