

Specialty Oligonucleotide Synthesis

RNA up to 90-mer

- * chimeric 2'-fluoro, 2'-O-Methyl oligonucleotides
- * full length tRNA

Oligonucleotide Delivery Uptake

- * PEG 2000, PEG 4500, Cholesterol
- * use of Reverse RNA Synthesis™ technology results in highly pure 3'-modified oligonucleotides

Novel Phosphate modifications

- * 2', 3'-cyclic phosphate oligonucleotides
- * 5'-triphosphate modified oligonucleotides
